- *Ability to prioritize*

Personal Profile

Hey There! I'm Arman, Junior Programmer offering excellent analytical skills and the important ability to function well both independently and in fast-paced team environments.

Work experience

2022 – present

- *Codium —Front-end Developer*
- *Codium —Front-end Tutor*

I worked with the team on the website "prozamki.com", which is written in React.js. I used Axios to communicate with the backend, SCSS for the styles, Swipe.jsr for the slider, and Redux-toolkit to manage project state.

Educational History

2016 - 2021 —Yerevan State University

- *Faculty of Informatics and Applied Mathematics*
